

# IPSC RULES PROPOSALS by IPSC BRAZIL

Last updated: 25/october/2022

## 1. Proposal to include Senior Lady in IPSC Recognition

APPENDIX A2: IPSC Recognition

### 3. Individual Categories:

Categories approved for individual recognition by Division are as follows:

- (a) Lady ..... Competitors of the female gender.
- (b) Super Junior ..... Competitors who are under the age of 16 on the first day of the match. A Super Junior has the option of electing to shoot in Junior Category, but not in both. If there are insufficient competitors for Super Junior Category to be recognized, all competitors registered in this Category will automatically be transferred to Junior Category.
- (c) Junior..... Competitors who are under the age of 21 on the first day of the match.
- (d) Senior ..... Competitors who are over the age of 50 on the first day of the match.
- (e) Super Senior ..... Competitors who are over the age of 60 on the first day of the match. A Super Senior has the option of electing to shoot in Senior Category, but not in both. If there are insufficient competitors for Super Senior Category to be recognized, all competitors registered in this Category will automatically be transferred to Senior Category.

### Proposal to include:

**(f) Senior Lady..... Competitors of female gender who are over the age of 50 on the first day of the match.**

**Reason: we have for the males why do we not have for the females. Our senior ladies should be competing against competitors of the same age group.**

## 2. PROPOSAL FOR THE CLASSIC DIVISION:

Change item 19 to:

**19. Magazines accessible to a competitor during a COF must not contain more than 9 rounds (for Major power Factor) or 10 rounds (for Minor power factor) at the Start Signal.**

Reason: Our Classic Division rules were basically copied from USPSA rules allowing 8 rounds in the magazines. However, USPSA allows **only** 8 scoring hits from a single view in the stage design for their Classic Division. In IPSC, our stage design allows for 9 rounds so competitors shooting minor, who already have the advantage of less recoil, also another 2 rounds in their magazine making stage strategy much easier for them. Let's make it fair for all the competitors in the division and set maximum at 9 rounds after Start Signal.

### 3. We support redefining the meaning of “compensator”.

Compensator ..... A device fitted to the muzzle end of a barrel to counter muzzle rise (~~usually~~ by diverting away escaping gasses).

## 4. RIFLE DIVISION RULES PROPOSALS:

### 1. Amend the Rifle Rules

#### (a) Amend Rules 1.2.1.2 & 1.2.1.3

1.2.1.2 Medium Courses – Must not require more than ~~10~~ 20 rounds to complete. Course design and construction must normally not require more than ~~5~~ 10 scoring ~~targets~~ hits to be shot from any single location or view, nor allow a competitor to shoot all targets in the course of fire from any single location or view. With a minimum distance of 100 meters it can be required to shoot 8 scoring targets from a single location or view. If 2 hits per paper target are required, the number of maximum rounds to complete is increased to 20 and the maximum number of scoring hits from any single location or view is increased to 10 (16 for targets placed at more than 100 meters distance).

1.2.1.3 Long Courses – Must not require more than ~~20~~ 40 rounds to complete. Course design and construction must normally not require more than ~~5~~ 10 scoring ~~targets~~ hits to be shot from any single location or view, nor allow a competitor to shoot all targets in the course of fire from any single location or view. With a minimum distance of 100 meters it can be required to shoot 8 scoring targets from a single location or view. If 2 hits per paper target are required, the number of maximum rounds to complete is increased to 40 and the maximum number of scoring hits from any single location or view is increased to 10 (16 for targets placed at more than 100 meters distance).

#### (b) Amend Rule 3.2.1

3.2.1 A written stage briefing consistent with these rules and approved by the Range Master must be posted at each course of fire prior to commencement of the match. This briefing will take precedence over any course of fire information published or otherwise communicated to competitors in advance of the match, and it must provide the following minimum information:

- \_ Targets (type & number);
- \_ Minimum number of rounds to be scored;
- \_ The rifle ready condition;
- \_ Start position;
- \_ Time starts: audible or visual
